

**IN THE CLAIMS**

Please amend the claims as follows:

Please amend claim 83 as indicated in the attached Appendix E. A clean copy of the claim amendment is attached as Appendix F.

**IN THE DRAWINGS**

The Examiner objected to Figures 4 and 5, stating that on block 440, the label "Source" should be changed to "Service" in accordance with the detailed description on page 10, lines 6 and 16 of the specification. The objection made by the Examiner with regard to Figures 4 and 5 is addressed by the Request for Approval of Changes to the Drawings filed herewith. Applicants submit that the drawing changes obviate the Examiner's objection. Accordingly, approval of the proposed drawing changes and withdrawal of the objection is respectfully requested.

**REMARKS**

Further to the June 14, 2002 teleconference between Applicants' representative (the undersigned, Mr. G. Discher) and Examiner Suarez, this Amendment corrects objections the Examiner made to the specification, claims and drawings in the Office Action dated June 5, 2002. Each of the Examiner's objections is addressed by this amendment. No issues of new matter or new issues should arise, and entry of the Amendment is respectfully requested.

In addition, page 1 of the specification is also amended to more accurately indicate the relationship of the present and parent applications in accordance with 37 CFR 1.78(a)(2), also as discussed during the June 14 teleconference. In this regard, a Request for Corrected Filing Receipt is attached hereto requesting issuance of a new Filing Receipt that contains language consistent with the priority data language used in the amended specification. Copies of a previously filed Application Data Sheet and Declaration and Power of Attorney, which indicate a previous claim to priority and continuity type under 35 USC §119(e) and §120, are submitted along with the Request for Corrected Filing Receipt.

Applicants also request a corrected Office Action Summary indicating acknowledgement of the aforementioned claims of priority.
